# BRAND GUIDE

'COTA

# OUR *purpose*

With each campaign, we connect to our audiences by becoming a part of their lives. Rather than talking about ourselves or simply explaining the importance of mobility, we are creating shared experiences. Our audiences will hear about COTA from the voices of our own customers.

Through our photography and visuals, we showcase “life in the moment” by telling the stories of people who are moving forward toward their goals and dreams. Overall, our message becomes a growing anthem: “We’re on this ride together.”

We speak with a bold, future-forward voice that listens to and involves others. We focus on being authentic and aspirational, representing people of different backgrounds and the many possibilities we can achieve together. This is a campaign about people coming together for the unified goal of moving all lives forward.

## **“WHY” IS MORE IMPORTANT THAN “WHAT”**

## QUICKSTART COPY CHECKLIST

- Focus on simplicity, and get to the point.
- Make bold, compelling statements of truth.
- When writing, “we” is the pronoun of choice.
- Always speak with compassion and empathy.
- When looking forward be realistic, yet aspirational.
- Always focus on believability and authenticity.

## TERMINOLOGY USE

**VEHICLE/BUS** We offer services above and beyond bus transit, so use the word vehicle when discussing transportation outside of COTA fixed-route lines, like COTA//Plus or COTA Mainstream. For our fixed-route services, bus or vehicle is appropriate.

**CUSTOMER/RIDER/PASSENGER** The people we serve are much more than just riders to us. Customer is preferred, though rider or passenger can be substituted when appropriate.

**BUS RAPID TRANSIT (BRT)** A fixed transit system that operates with increased frequency and high-capacity articulated vehicles that have Traffic Signal Priority (TSP), dedicated lanes and platform-level boarding, making travel faster and more reliable. Use Bus Rapid Transit or BRT.

**PARK AND RIDE** In all instances, capitalize the P and R, and do not substitute & for and.

**EMOJIS** We don't use skin-tone emojis (emojis with selectable skin tones) because we represent the entire community, not just one type of person. Use standard, universal emojis that don't specify demographic characteristics.

# OUR *voice*

## GENDER NEUTRALITY AND USE OF PRONOUNS

Growing numbers of people use *they/them/their* as a gender-neutral singular personal pronoun. To promote inclusiveness, diversity and equity, adhere to AP Style guidelines as much as possible for internal and external communications.

### **GUIDELINES**

- Use *they/them/their* to describe/represent a person who uses these pronouns.
  - *Don't say:* preferred or chosen pronouns
  - *Do say:* the pronouns they use, whose pronouns are, who uses the pronouns, etc.
- *They/them/their* take plural verbs — even when used as a singular pronoun.
- The singular reflexive *themselves* is acceptable when referring to people who use *they/them/their*.
- Use *they* rather than *he/she* for an unspecified gender or indefinite pronoun (anyone, everyone, someone).
- Rewording to avoid a pronoun is also acceptable  
***example:***  
The foundation gave grants to anyone who lost a job.  
(instead of anyone who lost their job).
- In instances where we say men and women, use *them/those/they*.  
***example:***  
Honoring those who died defending our freedom  
(instead of the men and women who died defending)
- When using *they/them/their* as a singular pronoun, explain if context isn't clear.  
***example:***  
Smith, who uses the pronoun *they*, said *they* will retire in June.

# OUR *photography*

All COTA photography should be representative of the rider and vehicle in the following manners:

## **WE ARE ORGANIC, CANDID & REPRESENTATIVE**

- The goal is to feel natural and authentic, not posed.
- Models should be relatable, as if they are an every day customer on our vehicles. Capture persons of color, persons ranging in age (children–seniors), different genders, abilities, persons of varying professions, social and financial demographics.

## **OUR TRANSIT VEHICLES ARE HEROIC**

- A vehicle must be present, whether in the foreground, background or represented by the interior architecture of the vehicle.
- Consider multiple angles of our vehicles, making them heroic. Think of them as a model, not a prop.
- Prioritize the use of battery electric vehicles when highlighting fixed-route service.

## **BE IN THE MOMENT**

- Photographer(s) should move around the environment capturing multiple angles of the riders and the vehicles.
- Capture candid moments of customers talking, reading or decompressing. These moments are best captured while traveling between shoot locations, not as individually posed moments.

## **WE FOCUS ON WHAT'S IMPORTANT**

- Use medium depth of field and sharp focus to allow for more adaptable images.
- Be cautious of our “live” set, avoiding obtrusive objects, light posts or harsh angles that draw the eye away from the subject matter, our vehicles and customers.
- Capture tall verticals and wide horizontals to encompass a vast majority of marketing spaces.
- Utilize level horizon lines whenever possible instead of skewing the shot.
- Continue to look for ways in which to capture, source and utilize imagery that reflects our entire community, while maintaining the raw integrity of our customers.

# OUR *logos*

## **PRIMARY LOGO**

### **MINIMUM SIZES**

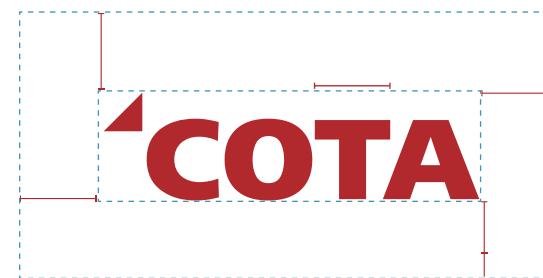

To maintain full legibility, never reproduce the logos at sizes smaller than those listed below.

'COTA

1.125 inches or 80 pixels

### **CLEAR SPACE**

Clear space must surround the logos to ensure legibility and prominence. The size of the clear space around all logos must be at least the width of the "T" in "COTA."

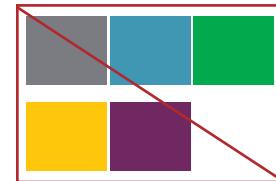

# OUR *logos*

## PRIMARY LOGO

**DO NOT** use any of the secondary or tertiary colors for the logo unless otherwise approved. White is acceptable.

## IMPLEMENTATION

To ensure consistent use of the logo, avoid the practices shown here.

**DO NOT** stretch or bend the logo in any way.

**DO NOT** change the font.

**DO NOT** change the color of the triangle.

**DO NOT** use drop shadows or other visual effects.

**DO NOT** use our logo in a sentence.

**DO NOT** add any extra elements to the logo.

# OUR *logos*

COTA has a number of sub-brands. The basic principles of logo space and use apply to these as well.

Going forward, new sub-brand logos will reflect the format of the COTA//Plus lockup. COTA is in navy (or white when reversed), and the triangle and sub-brand are another color.

# OUR *logos*

Occasionally, COTA partners with other brands and communications require the use of both logos together. To give ample space for each logo, place the other brand's mark no closer than the width of the "T" in the COTA logo, and center it with "COTA," not the full height of the logo to the top of the triangle.

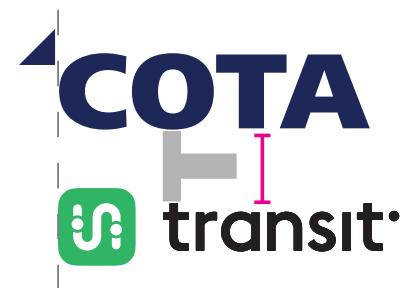

## CO-BRANDING

### LOCKUP EXAMPLE

T

Place second logo no closer than the width of the "T" in the COTA logo

If a stacked lockup is required, place second logo below the COTA with a width of "T" between them. Left align logos using the "C" in COTA, not the triangle.

# ERG *logos*

The logos for COTA's Employee Resource Groups (ERGs) should not be altered and should be included on all related content when appropriate or applicable. The text remains the same color throughout. The basic principles of logo space and use apply to these as well.

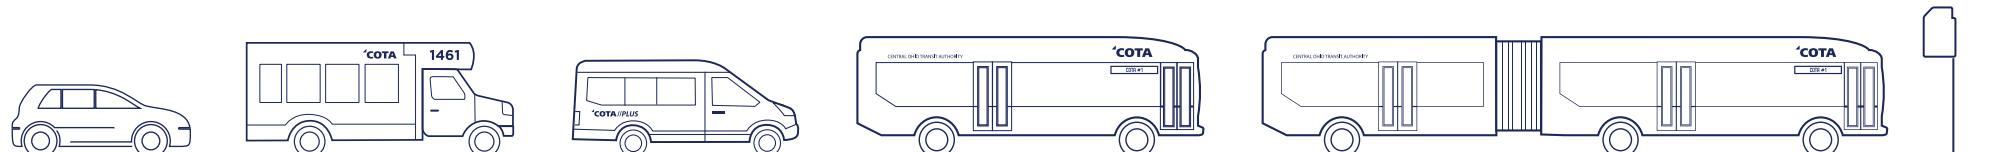

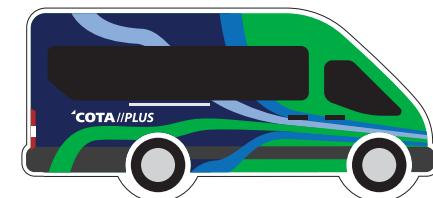

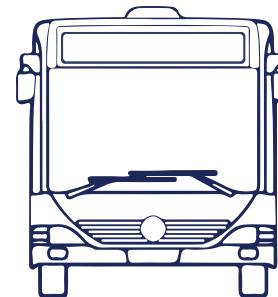

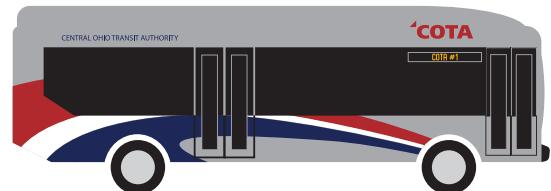

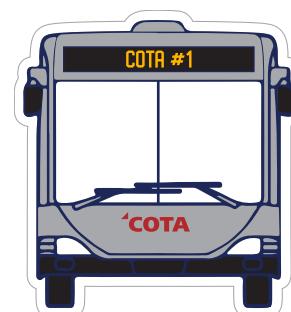

# VEHICLE *illustrations*

These are the approved design illustrations for COTA's vehicles.

When possible, we should use vehicle illustrations that depict all of COTA's main services.

## EXAMPLES

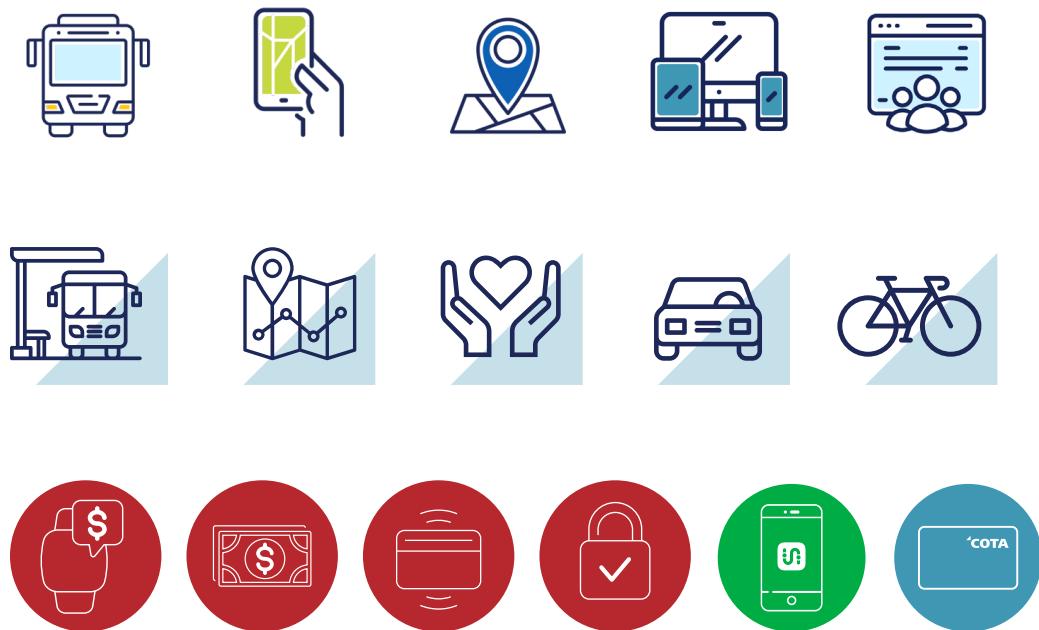

# OUR *icons*

Brand icons should always be simple, line-based (thinner lines are preferred) graphic depictions of the intended actions or information.

Always one color, they should complement the main color choices within the designed message and never overpower the overall message.
